Application for Laboratory Accreditation

INSTRUCTIONS:

Send completed application and supporting documents to: NRSB, 14 Hayes Street, Elmsford, NY 10523
If you have any questions please contact NRSB at 866-329-3474.
Accreditation is subject to review and approval by the NRSB.

Complete an application for each physical location.

Laboratory Name* ______________________________________________________________________
Physical Address: ______________________________________________________________________
City, State, Zip: ______________________________________________________________________
Contact Person: ______________________________________________________________________
Telephone: __________________________ Fax: ____________________________________________
E-mail: ___________________________ Website: _________________________________________

*The Laboratory Name will appear on the certificate issued by NRSB.

An NRSB Accredited Laboratory must be affiliated with an NRSB Registered Business. Indicate the name and NRSB registration number of the affiliated radon business below.

Affiliated Radon Business __________________________ NRSB Registration Number ____________

The following States have individual radon program requirements and regulations. Indicate all regulated States in which the applicant will provide radon laboratory services. Provide a copy of the current State radon laboratory license, certification or accreditation for each regulated state listed.

☐ California☐ Delaware☐ Florida☐ Illinois ☐ Indiana
☐ Iowa☐ Maine☐ Nebraska☐ New Jersey☐ New Mexico
☐ New York☐ Ohio☐ Pennsylvania☐ Rhode Island☐ Virginia
☐ West Virginia

Indicate all other States in which the applicant will provide radon services.

☐ All Other States

☐ Alabama ☐ Alaska ☐ Arizona ☐ Arkansas ☐ Colorado
☐ Connecticut ☐ Georgia ☐ Hawaii ☐ Idaho ☐ Kansas
☐ Kentucky ☐ Louisiana ☐ Maryland ☐ Massachusetts ☐ Michigan
☐ Minnesota ☐ Mississippi ☐ Missouri ☐ Montana ☐ Nevada
☐ New Hampshire ☐ North Carolina ☐ North Dakota ☐ Oklahoma ☐ Oregon
☐ South Carolina ☐ South Dakota ☐ Tennessee ☐ Texas ☐ Utah
☐ Vermont ☐ Washington ☐ Wisconsin ☐ Wyoming ☐ District of Columbia

List any territory or country other than the United States in which the applicant will provide radon services

Quality Assurance Program

If the laboratory is currently accredited by the National Environmental Laboratory Accreditation Conference (NELAC) for radon, list the primary accrediting body and accreditation number.

Primary Accrediting Body ________________________ Accreditation Number _________________________________

NRSB laboratory accreditation requires that the laboratory maintain the following components of a Quality Assurance program:

- Quality Assurance Plan
- Standard Operating Procedures
- Worker Safety Plan

Quality Assurance programs for laboratories require specific elements. Contact NRSB for further information regarding laboratory quality programs. NRSB laboratory accreditation does not imply NRSB’s review or approval of the applicants Quality Assurance program.

The applicant agrees to provide any of the Quality Assurance documents listed above upon request.

Provide the name and certification number of the NRSB Radon Measurement Specialist who is directly responsible for the operation and oversight of the Quality Assurance program for the radon laboratory.

Name: _____________________________ NRSB Radon Measurement Specialist Certification Number: ____________

List all measurement methods and NRSB Device Codes for all measurement devices used by the laboratory.

A list of device codes can be found at Click Here

Measurement Method Codes:
Alpha Track Detector (AT): Charcoal Canister (AC): Liquid Scintillation Vial (LS): Electrets Ion Chamber-Short Term (ES):
Electrets Ion Chamber-Long Term (EL) Continuous Radon Monitor (CRM) Working Level Monitor (WL)

Attach additional pages if necessary.

Submit a current annual proficiency test for each NRSB Device Code analyzed by the applicant. Proficiency tests must be performed by an NRSB Accredited Secondary Radon Chamber.

Provide an example of a report issued by the laboratory for each NRSB Device Code listed. Radon measurement reports require specific elements. Contact NRSB for further information regarding laboratory reports.

A list of Accredited Radon Chambers can be found at Click Here
Use of Certification and Logo

The applicant will not make claims about NRSB accreditation in a manner inconsistent with the scope of the certification issued. The applicant will not use NRSB certification status in any manner that would bring disrepute on the NRSB or be used in a way the NRSB deems misleading. The applicant agrees to discontinue any claims of accreditation including use of the NRSB logo, NRSB certification numbers, and references to NRSB that may be misleading upon suspension or revocation of certification.

Code of Ethics for Radon Professionals

The following Code of Ethics serves as an agreement with radon professionals who possess a current NRSB certification. The established rules are necessary to protect the life, health, property and welfare of the public, and to maintain the credibility of the certification program. Accordingly, each NRSB certificate holder agrees to retain full responsibility and liability for their actions and agree to comply with the following Code of Ethics. Violation of this Code of Ethics or failure to abide by the requirements described by any NRSB certified person might be cause for discontinuing certification.

Responsibility: Protect the safety, health and welfare of the public, by performing all certified activities in accordance with properly established and approved procedures and standards adopted by the National Radon Safety Board.

Integrity: Perform all certified activities honestly and treat the public, clients and employer in an impartial, ethical and professional manner. All details of the certified activity shall faithfully and accurately reflect the inspections; procedures used, and result obtained.

Conflict of Interest: Consciously avoid conflicts of interest and openly disclose such conflicts to all concerned parties.

Improper Conduct: Refrain from work activities outside the area of certification without prior approval.

Safety: Act in a safe and responsible manner while conducting certified activities, ensuring that all required and necessary safety procedures are in place and are being used by yourself and others for whom one is responsible.

Representations

Has the laboratory described in this application or anyone directly responsible for the operation and oversight of the laboratory ever had a radon license or certification denied, suspended, revoked or not renewed by a Federal, National, or State Radon Program.

☐ Yes  ☐ No  If yes, submit a letter explaining the reasons for the revocation or non-renewal.

The applicant agrees to notify the National Radon Safety Board within 7 days, in writing, of any radon license, accreditation or certification denied, suspended, revoked, or not renewed by a Federal, National or State Radon Program. The applicant agrees to notify the National Radon Safety Board within 30 days, in writing, of any change in the information provided in this application.

The laboratory and all persons or organizations affiliated with this laboratory are responsible for complying with all the requirements of any State program in all states in which radon services are provided. Failure to maintain accreditation or licensure in a regulated state in which the laboratory provides radon services will result in loss of NRSB accreditation. The applicant attests that all information in this application is true and agrees that the laboratory described in this document and all persons or organizations affiliated with this business will abide by NSRB requirements. Providing false information or failing to comply with NRSB requirements will result in loss of NRSB accreditation. The undersigned understands that accreditation does not constitute any form of license. Additionally, the applicant releases and forever discharges the National Radon Safety Board, (NRSB), a non-profit organization, and NRSB subcontractors from any and all liabilities, claims, demands, or causes of action whatsoever, which now exist or which may hereafter arise on account of the applicants activities henceforth as Accredited by the NRSB. The applicant authorizes the NRSB to list the applicants’ accreditation status on the Internet or in print. The applicant further acknowledges that this release is being given as a prerequisite for having filed an application for consideration by NRSB.

The applicants’ signature must be of the individual who is directly responsible for the operation and oversight of the Quality Assurance Program for the radon laboratory.
