

## Application for Radon Measurement Certification

**INSTRUCTIONS:**

Complete the forms and supporting documents.

You may email ([info@NRSB.org](mailto:info@NRSB.org)), fax (914.345.1169) or send to: NRSB, 14 Hayes Street, Elmsford, NY 10523.

If you have any questions please contact NRSB at 914.345.1168.

Certification is subject to review and approval by the NRSB.

Name of Applicant \* \_\_\_\_\_

Address: \_\_\_\_\_

City, State, Zip: \_\_\_\_\_

Mailing Address (if different) \_\_\_\_\_

Contact Person: \_\_\_\_\_

Telephone \_\_\_\_\_ Fax: \_\_\_\_\_

E-mail: \_\_\_\_\_ Website: \_\_\_\_\_

\*This name will appear on certificate issued by NRSB

An NRSB certified individual must be affiliated with an NRSB registered business. Indicate the name and NRSB registration number of each affiliated radon business below, attach additional pages if necessary.

Affiliated Radon Business \_\_\_\_\_ Business Registration Number \_\_\_\_\_

**Type of Certification applied for**

- Radon Measurement Specialist (RMS)                       Radon Measurement Technician (RMT)

**States**

The following States regulate radon measurement. Indicate all regulated States in which the applicant will provide radon services. Provide a copy of the current State radon measurement certification or license for each regulated state listed that issues such certification or license.

- |                                        |                                   |                                  |                                       |                                       |

List any US territory or country other than the United States in which the applicant will provide radon services

---

**Devices**

List all Measurement Methods Codes and NRSB Device Codes for all radon measurement devices used when providing radon measurement services. A list of device codes can be found at <http://www.nrsb.org/wp-content/uploads/2019/04/NRSB-Approved-Devices.pdf>

Measurement Method Codes:

Alpha Track Detector (**AT**), Charcoal Canister (**AC**), Liquid Scintillation Vial (**LS**), Electret Ion Chamber-Short Term (**ES**), Electret Ion Chamber-Long Term (**EL**), Continuous Radon Monitor (**CRM**), Working Level Monitor (**WL**)

List the accreditation name and number of the laboratory that will be perform analytical services for each listed device. A list of the laboratory accreditation numbers can be found at <http://www.nrsb.org/find-a-pro/>

Measurement Method Code	Laboratory Name <i>(if applicable)</i>	NRSB Laboratory Accreditation Number	NRSB Device Number
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

**Continuous Radon Monitors**

If the applicant issues a radon measurement report directly to a client and not through an NRSB accredited laboratory, attach an example of a report issued. Radon measurement reports require specific elements. Contact NRSB for further information regarding radon measurement reports.

For initial certification, users of continuous radon monitors must submit a successful proficiency test for each NRSB Device code of continuous radon monitor used. The proficiency test must be performed by an NRSB Accredited Secondary Radon Chamber. A list of Accredited Radon Chambers can be found at <http://www.nrsb.org/radon-chambers/nrsb-accredited-chambers/>

For renewal applications, you are not required to complete a proficiency test unless you are using a different model than the previous years.

For measurement services made with continuous radon monitors, attach a current certificate of calibration for every continuous radon monitor used to perform measurements. A certificate of calibration must be issued by an NRSB Accredited Radon Chamber that is authorized by the manufacturer to perform calibration for the instrument model.

**Electret Ion Chambers**

For initial certification, users of electret ion chambers are required to submit a proficiency test. The proficiency test must be performed by an NRSB Accredited Secondary Radon Chamber. A list of Accredited Radon Chambers can be found at <http://www.nrsb.org/radon-chambers/nrsb-accredited-chambers/>.

For renewal applications, you may submit the results of blind spiking tests (comprising at least five detectors in total, conducted within the applicant's last NRSB certification period, and compliant with the [*policy document name*]) in lieu of a repeated proficiency test. This can be completed by an NRSB accredited tertiary chamber or secondary chamber.

For measurement services made with an electret ion chamber, attach a current certificate of calibration for every electret voltage reader used to perform measurements. A certificate of calibration must be issued by an NRSB Accredited Radon Chamber that is authorized by the manufacturer to perform calibration for the instrument model.

### Training and Education

For initial certification submit documentation demonstrating successful completion of an NRSB approved course for initial training and the NRSB exam score letter.

To renew RMS certifications submit documentation demonstrating completion of 8 hours of approved Continuing Education (CE) for 1 year or 16 hours of approved continuing education for 2 years.

To renew RMT certifications submit documentation demonstrating completion of 4 hours of approved Continuing Education (CE) for 1 year or 8 hours of approved continuing education for 2 years.

A list of NRSB approved training providers can be found at <http://www.nrsb.org/courses/continuing-education-courses/>

### Quality Control

The applicant agrees to follow the policies and procedures of the Quality Assurance Program of any affiliated Radon Business. The NRSB reserves the right to obtain copies of any quality documents used by the applicant.

### Use of Certification and Logo

The applicant will not make claims about certification in a manner inconsistent with the scope of the certification issued. The applicant will not use certification status in any manner that would bring disrepute on the NRSB or be used in a way the NRSB deems misleading. The applicant agrees to discontinue any claims of certification including use of the NRSB logo, certification numbers, and references to the NRSB that may be misleading upon suspension or revocation of certification.

### Code of Ethics for Radon Professionals

The following Code of Ethics serves as an agreement with radon professionals who possess a current NRSB certification. The established rules are necessary to protect the life, health, property and welfare of the public, and to maintain the credibility of the certification program. Accordingly, each NRSB certificate holder agrees to retain full responsibility and liability for their actions and agree to comply with the following Code of Ethics. Violation of this Code of Ethics or failure to abide by the requirements described by any NRSB certified person might be cause for discontinuing certification.

Responsibility: Protect the safety, health and welfare of the public, by performing all certified activities in accordance with properly established and approved procedures and standards adopted by the National Radon Safety Board.

Integrity: Perform all certified activities honestly and treat the public, clients and employer in an impartial, ethical and professional manner. All details of the certified activity shall faithfully and accurately reflect the inspections; procedures used, and result obtained.

Conflict of Interest: Consciously avoid conflicts of interest and openly disclose such conflicts to all concerned parties.

Improper Conduct: Refrain from work activities outside the area of certification without prior approval.

Safety: Act in a safe and responsible manner while conducting certified activities, ensuring that all required and necessary safety procedures are in place and are being used by yourself and others for whom one is responsible.

**Representations**

Has the applicant described in this application or anyone affiliated\* with the applicant named in this application ever had a radon license, certification or accreditation denied, suspended, revoked or not renewed by a Federal, National, or State agency?

**Yes**    **No**   **If yes, submit a letter explaining the reasons for the revocation or non-renewal.**

The applicant agrees to notify the National Radon Safety Board within 7 days, in writing, of any radon license or certification denied, suspended, revoked, or not renewed by a Federal, National or State agency. The applicant agrees to notify the National Radon Safety Board within 30 days, in writing, of any change in the information provided in this application.

The applicant and all persons or entities affiliated\* with the applicant are responsible for complying with the requirements of each State and/or other legal jurisdiction in which radon services are offered. Failure to maintain accreditation, certification or licensure or engaging the services of an entity or individual that is not in compliance with the requirements of a States' radon regulations in which the applicant provides radon services may result in loss of NRSB accreditation. The applicant attests that all information in this application is truthful and accurate and further agrees that the applicant and all persons or entities affiliated with the applicant will comply with NSRB requirements. Providing false or misleading information or failing to comply with NRSB requirements may result in loss of NRSB accreditation.

The NRSB reserves the right to contact any State, National, or private certification agency regarding any information provided in this application.

The undersigned understands that certification does not constitute any form of license. Additionally, the applicant releases and forever discharges the, NRSB, a non-profit organization, and NRSB contractors or subcontractors from any and all liabilities, claims, demands, or causes of action whatsoever, which now exist or which may hereafter arise on account of the applicants activities henceforth as certified or accredited by the NRSB. The applicant authorizes the NRSB to list the applicants' certification or accreditation on the Internet or in printed publication. For good and valid consideration it is acknowledged herein the applicant agrees to release and discharge the NRSB from any and all claims related to this application for the applicant's certification or accreditation by the NRSB that exists now or in the future.

\*Affiliated: an affiliated entity is owned or substantially controlled by another entity
